

THREE NEW MONTHLY DAFR REPORTS ARE AVAILABLE

Three new reports will be available beginning with the May month end report run on June 15, 1996.

DAFR9290 Revenue and Expenditure Description provides transaction level information by Organization and Program for appropriations showing the transaction description. The report identifies object, current document, reference document, transaction code, vendor number/mail code, vendor name, description, and amount. This is a companion report to DAFR9300 Revenue and Expenditures by Organization, Program, and Appropriation report and should be requested at the same level options.

DAFR9300 Revenue and Expenditures by Organization, Program, and Appropriation provides summary level information. The report provides agency code, object, title, cash, accruals, pre-encumbrances/encumbrances outstanding, and total. This is a companion report to DAFR9290 Revenue and Expenditure Description report and should be requested at the same level options.

DAFR6470 Reportable Expenditures (Section 30 and Other) provides year-end expenditure information for Section 30 reportable expenditures. The report provides appropriation number, appropriation year, comptroller object, fund, title, financing type, and expenditures.

Additional information can be obtained by viewing the 90 News/Help Table and typing DAFR9290, DAFR9300, or DAFR6470 in the keyword field and pressing enter.

These reports are available on a monthly basis, beginning June 15 when May month-end reports are run. Your Agency Report Coordinator may submit report requests after June 4, 1996.
